## INTRODUCTION.

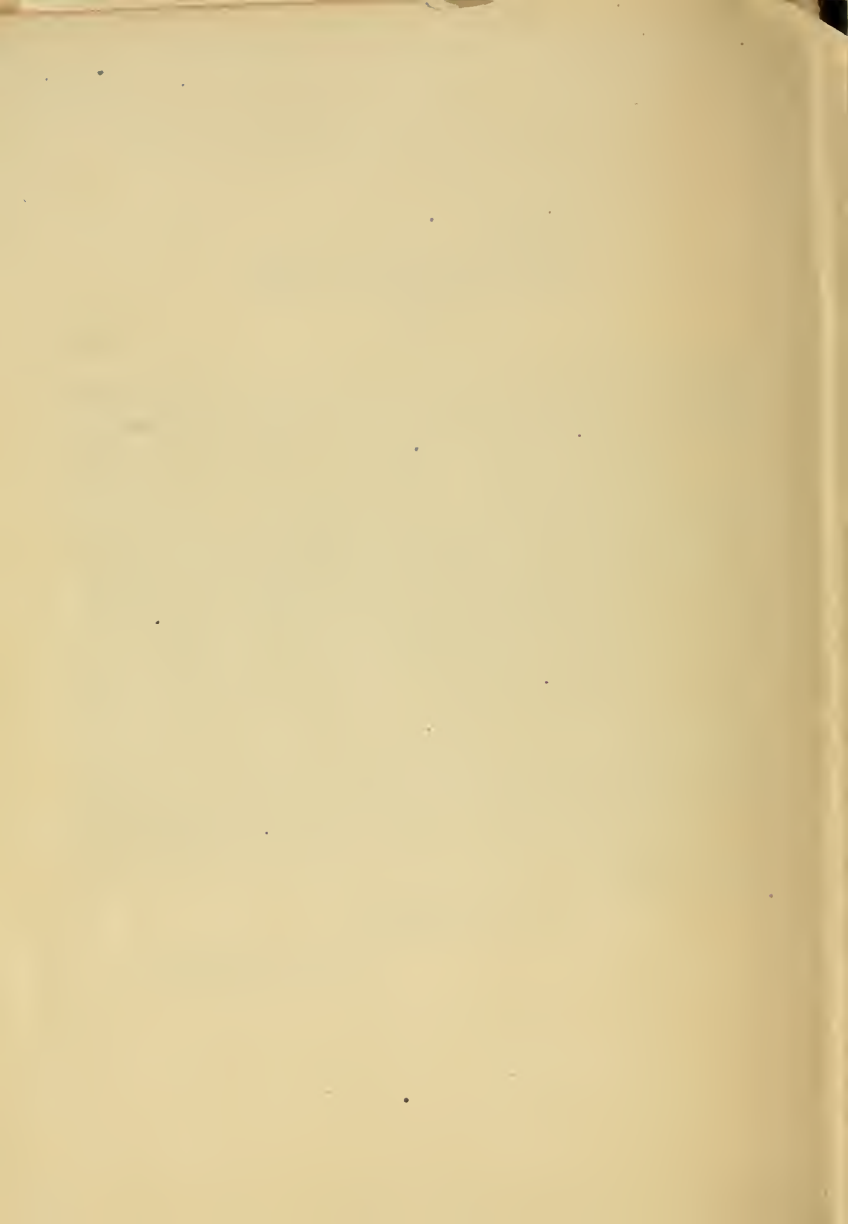

---

HAVING for more than eleven years followed the profession as Master Barber and having given it my exclusive attention, in all its forms and branches, the book herewith presented, has grown out of these observations and experiments. My fellow-workman, you will agree with me that all works touching upon our trade, at least so far as have come to my notice, are advertised to be the Barbers' Guide Book, &c., and a short perusal shows, that Medical Recipes are the principal contents. In presenting my Manual and Barbers' Hand Book of Formulas, the book will prove to you just what the title purports it to be, eliminating all foreign matter, so that every line and page thereof will be a guide and instructor to the profession.

With these few remarks, this book is fraternally commended.

Yours respectfully,

THE AUTHOR.

## PRACTICAL SUGGESTIONS.

---

When using a receipt for making a preparation always try the first or second one, of their respective kinds. All articles should be bought in large quantity as it is much cheaper. Shaving Soap should be bought by the box, and let it dry well. Perfuming Oils can be bought in any quantity, and care should be taken to get a good article.

Alcohol classified by government inspectors at 188°, usually retailing at about \$2.50 per gallon. Cologne Spirits, classified at 190°, worth about \$2.75 per gallon, and called high proof. Proof Spirits, marked 100°, worth about \$1.50 per gallon. Alcohol 95°, or diluted alcohol, is obtained by taking strong alcohol 188° and water, equal parts. Alcohol should be bought of some wholesale dealer or rectifier of spirits.

---

When any information or explanation is wanted pertaining to Receipts in this book, 2 cents in postage stamps should always be enclosed with letter, to insure an immediate answer.

When ordering a copy of this book the money should be sent by Registered Letter, Money Order or Postal Note, to the publisher.

Address all communications to,

H. STREITENBERGER,

No. 1.

## BAY RUM.

Half Gallon Portion.

Oil of Bay . . . . .	1 oz.
“ Orange . . . . .	1 dr.
“ Pimento . . . . .	30 drops.
Alcohol . . . . .	4½ pts.

Water enough to make 8 pints.

DIRECTIONS.—Mix the oils with the alcohol, shake well, gradually add water, set aside for ten days, then filter through magnesia. If the desired color is not obtained, filter again.

Take Carbonate Magnesia and pulverize it very fine in a mortar or other suitable dish. When filtering, be sure to have the filtering paper properly folded—any druggist will fold them for you. Place your filtering paper in a glass funnel, then put your magnesia in with a little Bay Rum added to it and pour in slowly on the sides of the paper, so as not to burst a hole in the bottom.

No. 2.

Oil of Bay . . . . .	1¼ dr.
“ Pimento . . . . .	20 drops.
Acetic Acid . . . . .	2 dr.
Alcohol, strong . . . . .	3 pts.

DIRECTIONS.—Mix the Acetic Acid with the oils, add the alcohol and water. Let it stand for ten days, and filter same as No. 1.

No. 3.

Oil of Bay . . . . .	1 dr.
Alcohol . . . . .	2 pts.
Water . . . . .	2½ pts.
Carbonate Potassia . . . . .	½ oz.

DIRECTIONS.—Dissolve the Potassia in water and proceed same as No. 1.

No. 4. A substitute for Bay Rum.

Oil of Cloves . . . . .	1 dr.
“ Nutmeg . . . . .	45 drops.
Alcohol . . . . .	2½ pts.
Water . . . . .	3 pts.
Tinct of Curcuma . . . . .	40 drops.

Macerate for 10 days and filter through magnesia.

---

BANDOLIN.

A preparation as a fixture for the Hair  
for Lady's Toilet.

Gum Tragacanth . . . . .	½ oz.
Water . . . . .	25 oz.
Alcohol . . . . .	8 oz.
Oil of Bitter Almonds . . . . .	20 drops.
Tr. Cochineal . . . . .	7 drops.

DIRECTIONS.—Place the Gum Tragacanth in the water for 24 hours. In winter this should be kept in a warm place. Strain through cloth, then add the oils of Almonds, and Cochineal. Dissolve in the alcohol, mix all together.
